

Lively Tech Car Show March 4th

Lively Tech held their annual show and shine car show on March 4th. TRAACA was present and had quite a few cars.

This is always a great show, and fun for all.

We had a booth set up with free magazines, soda cozies, and recruiting information. Things went well.

The weather cooperated with us, and we saw a lot of really great cars!

The History of “Ker-chunk”

The 8 track tape player system.

The first music tape system available for the car was the 8 track. It was wildly popular with customers from the mid “60s to the early “80s.. It was finally killed off by the cassette tapes. But who can forget the “ker-chunk” sound as it was changing tracks?

The 8 track system was developed in 1964 by a consortium led by Bill Lear, of Lear Jet Corporation. Along with Ampex, Ford, GM, Motorola, and RCA.

The 8 track format is now obsolete although there are still some bands that release these tapes as a novelty. Cheap Trick’s “The Latest” in 2009, and Dolly Parton’s Christmas in 2020.

The popularity of the 8 track cartridges grew from the booming automotive industry. Ford Motor Co. became the first to install a factory unit in the 1965 Mustang as an option. They became available on the Thunderbird, and the high end Lincolns.

RCA Victor introduced 175 titles in stereo 8 tapes from it’s music catalog. By 1967, the tape players were available in all of Ford’s cars.

In 1966, the popular system became available in home decks. That meant the owners could listen to a tape in the car, and finish it in the home. There were also portable “boom box” type stereos made.

Also, by the late 60s, prerecorded tapes began coming out within a month of the vinyl albums release. The 8 track format became the most popular, and offered the largest music library of any other system. Bootleg tapes were everywhere

1978 was the peak year for 8 track sales in the United States, with sales decreasing quite rapidly. Eight track players became less common in cars and homes due to the rising popularity of the cassette.

In the U.S., 8 track cartridges were phased out of retail stores by 1982.

These days, you can only see them in 60’ and 70;s classic cars at shows. But they are still available on Ebay along with many cartridges. _DWR

Great meeting! Ann Stallings won the 50/50 2.0 taking \$32.00 home! Karilyn Kunstbeck won a set of fuzzy dice! Just what Honeybun needed.

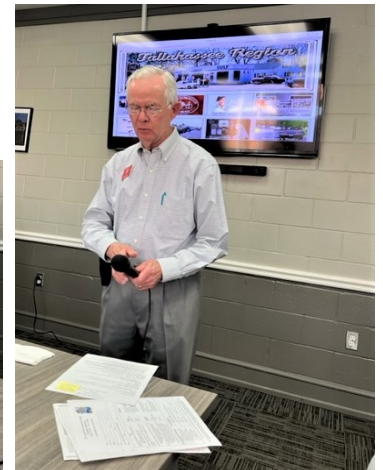

A big Thank You goes out to Ken and Jenny Hart for a great presentation of their visit to the Lane Motor Museum in Nashville Tn.

Contact Bob Skrob at (352) 239-5550 or myhighpoint@yahoo.com. -Bob.

Note: Bob was involved in a rear end collision with his Chevy. He had minor injuries, and the car's fate is undetermined. -DWR

March Club Meeting

The March meeting was a great time for all. The 50/50 2.0 was won by Ann Stallings. Two new members were present. Bill and Penny Halsell. They have a 1950 Desoto, and hail from Panama City Beach. Welcome to the best club in Florida!

Members book request for 2023

John Schanbacher has requested that all of our current members submit a picture of yourself with the car you own. This will be made into a booklet available to all club members. He sent out an email to all, detailing how to do the submission.

This will not take you very long, and most of us have pictures of ourselves with our cars anyway. Please send the pictures to John so we can get this rolling?

1964 Corvair One Millionth Car Built at Willow Run

 **March 17, 1964
St. Patrick's Day**

On March 17th, Saint Patrick's Day, 1964, the one millionth Corvair was driven off the Willow Run assembly line. The car was decorated with Shamrocks and special signage.

The car's whereabouts today is unknown. But, just the fact that it was the one millionth Corvair off the assembly line shows that the public liked the little air-cooled car.

The car was a white Corvair Monza Convertible, 110h.p. It had an Emerald green top with an emerald green interior.

Trivia Question Section

Who wrote to Henry Ford, “I have drove Fords exclusively when I could get away with one. It has got every other car skinned, and if my business hasn’t been strictly legal, it don’t hurt anything to tell you what a fine car you got in the V-8” ?

Clyde Barrow, of Bonnie and Clyde. The letter has been disputed, but still hands on Fords office wall.

Thanks Chuck!
