Traveling in  
the Past  
and Present

## Tallahassee Region Antique Automobile Club of America

### TALLAHASSEE REGION, AACA MEETING MINUTES April 11, 2017

The Old Tallahassee Auto Museum

There were approximately 37 members and guests present at this meeting.

**Pledge to the Flag:** Everyone

**Opening prayer:** Ken Hart asked for a moment of silence.

**Welcome:** Ken Hart welcomed everybody. John Schanbacher introduced Dave Hart and Delores Stewart.

**50/50 Drawing:** Kathy Hanbury collected monies for the 50/50. Thank you Kathy.

**Program:** Jack Hanbury introduced four instructors from Lively Technical College, Randy Free, Kenny Adams Darrel Johnson, and Gregg Hoover. They presented a slide show of the facility and explained that it is a four day a week program (Monday – Thursday) so that students can work weekends; there are typically 70-80 students enrolled; some students bring in old cars to work on although there is no specific certification for older cars; they also provide instructions for the auto program at Wakulla High School; and students receive a 50% discount on tools from several well-known tool manufacturers. They thanked the Club for the two scholarships provided (plus local and national Club memberships) and welcomed Club members to visit the facility at any time, particularly at lunch time which would be great for the students. A question and answer session followed the presentation. Thank you gentlemen.

**Announcements & Reports:** Jack Hanbury gave a report on the Charlotte Car Show. He said it was a good show with over 300 cars, 1,000 vendors, and over 1.5 miles of cars for sale. The weather was beautiful with cool mornings.

Ken Hart reported that the Monticello Tour was very nice and included a self-guided tour of older homes. Norm led the way. The weather was beautiful. Craig McCollum advised that everyone should include the jail tour but that it is only provided every other year, so you will have to wait two years to enjoy it.

Ken Hart showed an example of possible promotional material in the shape of Mustang promoted by National; he does not know the cost. He found it not to be an easy format to carry around and is still looking for ideas on what to put on the business card that Vic has agreed to produce. Send Ken Hart an email or call him with your ideas.

Bob Brown advised that he has seen a 1949 Studebaker for sale on an empty lot in Inglis. He has information on the seller if anyone is interested.

**Committee Reports:**

**Sunshine:** Pam Pumphrey was sick and could not attend. Lori Forester said she knew of no one, other than Pam, who was not well. If anyone knows of someone who would appreciate receiving a card or some outreach from the Club to let Pam know.

**Treasurer's Report:** Norm Madsen presented the report; details are available from him.

**Tour Committee:** Norm Madsen updated everyone on Down Home Days in Madison on April 22. Ken Hart sent out a flyer today with details. The plan is to meet at the Vineyards Publix on Mahan Drive. The parade begins at 10 so the plan is to meet at 7:30 and be prepared to leave at 8. Approximately 8 people at the meeting indicated they would participate

**Show Committee:** Craig McCollum provided updates on the Watermelon Festival Car Show on June 17. He said he could use a few more prizes; you can bring them to the next meeting. The show this year will be in memory of Bobby Hollingsworth. Nell Hollingsworth thank members for this kind gesture.

June 17 is also the date of the Celebration Baptist Church Car Show; it is in the evening.

The Cairo 29<sup>th</sup> Annual Car Show is May 12-13. Details will be in the newsletter.

Norm advised that the Havana Merchants Association is having a car show the third Saturday in May (Memorial Day weekend).

The Apalachicola Car Show is this Saturday (April 15).

Tyson Hill was introduced and offered a proposal to the Club regarding the Florida Forest Festival in Perry the weekend of October 27. Due to a current "dilemma" this year (the organizers bailed), they are looking for someone to run the car show part of the festival. The club would be responsible for onsite registration, collecting money (or a Chamber person could perform this task), running the car show, including judging, etc. The festival will cover all expenses associated with the event including prizes. He will be the point of contact (cell: 850-843-8919); there will be free entrance for Club members and the Club can promote the Club for membership via banners, handouts, etc., without charge. While money from the "gate" cannot be offered, the Club would be given permission to hold a 50/50 raffle. The Club will take this under consideration.

**Coming Events:**

Norm advised that last June the club helped him remove his Model T engine to have it rebuilt. Well, it's done and he needs some help to put it back in this Saturday at Norm's warehouse. Contact Norm for directions if you can help.

Russ Haines is having a garage sale of car parts at his house on Saturday. They say you can't miss it on Aeon Church Road.

Breakfast at Cracker Barrel, this Friday at 8:30 am (every month on the Friday following Club meeting).

Quincy Gulf Station, Fridays at noon; bring your own lunch. The Gulf Station is the only one in town and is a historical site.

**Old Business:** None this meeting

**New Business:** None this meeting

**Next Meeting:** The next meeting will be held on Tuesday, May 9, 2017, beginning at 6:00 pm at the Old Tallahassee Auto Museum. The meeting was adjourned at 7:46 p.m.

Submitted by Marianne Trussell, secretary

## TRAACA Tech Day: 1926 Model T Coupe Engine Installation By Craig Brown

April 15, 2017 Norm Madsen's Garage

About sixteen club members assembled despite pre-Easter chores to install the rebuilt engine in Norm's 1926 Ford Model T Coupe. Some will remember a previous tech. day when the engine was removed because the magneto required attention and it was time for an engine re-build. The engine and transmission were pulled together and would be installed the same way

This is the engine right after it was removed for the rebuild:

Rebuilt engine ready to be installed:

The first step in engine installation is to ensure everyone is at full strength by having a good breakfast. Kathy and Norm laid out a spread of caffeinated beverages, donuts, muffins and other tasty treats to give the members something to do with their mouths other than spew new insults bashing each other's Fords and Chevys.

Norm had everything well organized and ready to get started. The 91-year-old coupe had waited patiently to be re-united with her engine.

The crew had the advantage of several members who had been through this very evolution before. Norm, Bob, Dan, John, Lori and Eric handled the majority of the engine hoist chores with help from others to make position changes.

Rueben & Don were inside the car to guide the transmission and pedals past the firewall.

Norm got under the Model T to direct the final alignment adjustments while Reuben installed the drive shaft bolts. There were plenty of members present and willing to help out, but not enough assigned jobs for everyone. Some took turns at the project manager role by grazing at the breakfast table and periodically strolling over to the work area to ask for a status report.

Nothing could stop this determined crew. We were prepared for the difficulty of how to tilt and angle the engine to clear the firewall, but the alignment of the drive shaft to the transmission was a small

Tech. day always produces valuable lessons learned:

RTV Silicone is a great invention and much better at keeping fluids inside the engine than cup grease, spit or dirt.

Don't be afraid to augment appropriate gaskets with a thin layer of RTV even though this "isn't the way Henry did it!"

Model T side engine mounts sit directly on the frame rails and the blocks of wood go between the frame rails to prevent frame compression when the engine is bolted down. Noise, vibration and harshness (NVR) was invented long after 1926.

Much like flying, the Model T engine and transmission combination needs to experience pitch, roll and

The engine installation went smoothly and was complete before lunchtime. Soon the Model T will be ready for many more years of happy motoring.
